Clock cat

This is a display widget of time. Time and the date now are taught with the balloon that the cat had in the hand. Cat's kind, the balloon, and clothes such as hats can be freely selected. Please coordinate cat's clothes and balloon according to feelings and clothes on the day. When the media volume is raised, the cry is heard because the cat mews when a set screen is opened. * This is a pay version of Clock cat. * Though the advertisement is displayed as for a free version* The difference has not been provided yet now as a function. * Not anxious about the advertisement : a free version please. Start method1.In the home screen, it is a long push as for the screen. 2.Because the menu panel is displayed, "Widget" is selected. 3."Clock cat" is selected from the lis...

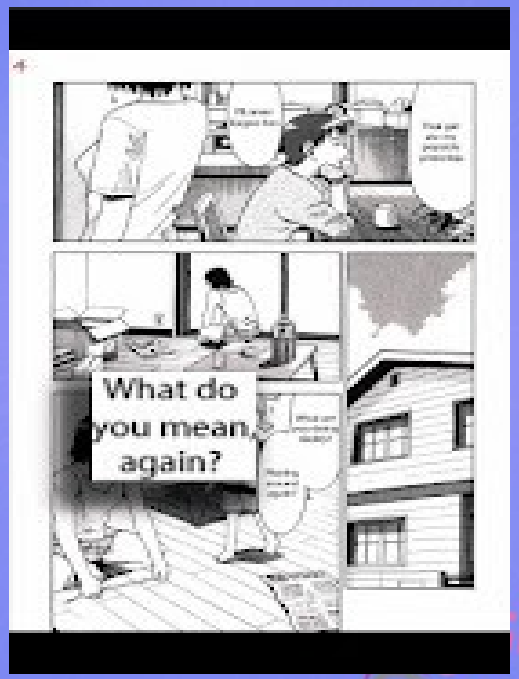
Comic Reader Mobi

The Best Comic Reader Ever!Read Full Sized Comics On Small Screens!*For the small screens*The problem is the same for everyone. A comic page that is way too big to fit in the screen. Zoomed out, you can see the art just fine, but you can't read the text. Zoomed in, you can read the text but you can't see what's going on!Comic Reader Mobi's Smart Lens technology solves this once and for all! Just click on any text block, and CRM will automatically detect where it is and pop it out in a readable size! Best of all, it works on any image, so there's no need for proprietary formats or converted comics!Finally, you can read the text and enjoy your comics as the artist intended!*For the tablets*Stream comics from your computer using an standard WebDAV server! Just point it to...



ConnecToo (Connect two)

Get your brain thinking! Fun and addicting puzzle game ConnecTooSimple, fun, addicting fast thinking logic game. Connect color elements without crossing paths! More than 200 levels, global leaderboards and Facebook integration!ConnecToo is a game of logic, fast thinking and perception. Goal of game is to connect every two elements of same color. No problem, right? Well, the problem is, that lines you draw cannot cross each other, you are limited to grid and moreover you have time running fast. So act quick, or you'll loose all lives and soon the game will be over ;)This game is also known as Arukone in some countries.=====reviews said=====Gameplay is simple enough to pick up, but tricky to master; the correct approach to the various puzzles is unclear more often than not. Also, some of ...
